The PerfectFIT stretch-fit system expands on demand vertically & horizontally comfortably reducing headaches. PerfectFIT utilizes a patented four-way stretch channel - found in no other stretch cap. The PerfectFIT is the only stretch-fit cap system that utilizes a combination stretch channel and a traditional sweatband—resulting in increased comfort by reducing that headache feeling and annoying indentations that other stretch-fit cap systems can't help...

ONLY the PerfectFIT system DOES NOT USE UNDERWEAR elastic AS A SWEATBAND. **Don't be fooled...** get the PerfectFIT.
